DECKER & CO.'S

IVORY AGRAFFE BAR

PIANO-FORTES.

WAREHOUSES: No. 2 Union Square, cor. 14th st. and 4th av.

These instruments are celebrated throughout the country, and are distinguished for their

SINGING QUALITY;

VOLUME AND PURITY OF TONE;

SYMPATHETIC,

ELASTIC,

EVEN TOUCH;

DURABILITY OF CONSTRUCTION,

AND BEAUTY OF FINISH.

Decker and Company's Pianos have always received the First Premiums, whenever and wherever they have competed with the most celebrated makers in this country.

OUR IVORY AGRAFFE BAR

is an invention, beautiful in its simplicity and wonderful in its practical effects. It is the most compact Agraffe ever invented, and its influence upon the tone is to render it mellower, rounder and more clearly brilliant, while it utterly overcomes that sharp, metallic quality, which disfigures the instruments of all other makers.

Why We Excel,

While other Pianos are rarely in tune,

THE DECKER & Co.'s PIANOS invariably retain their Pitch and Tone.

While other Pianos are made of poor or unseasoned materials,

THE DECKER PIANOS combine the Best Materials, Skillful Workmanship, and Scientific Construction.

While other Pianos are deficient in the great requisites of a good touch,

THE DECKER & Co. PIANOS have a flexibility under skillful manipulation, which not only adapts them to the style of every performer, but which causes the player to feel in rapport with the Instrument, and affords his taste and fancy free expression.

It is a FACT—That philosophy of construction is not less important than fitness of material.

It is a FACT—That various minute, unobserved appliances, adaptations and improvements, have an influence in the tone, durability and manipulative character of a Piano, in no degree inferior to the more ostensible modifications.

It is a FACT—Therefore, that science, as well as experience; artistic discrimination, as well as methodic care; capital, as well as conscientiousness, are requisite in the production of a GOOD PIANO-FORTE. In our

Ivory Agraffe Bar Piano-Forte

is exhibited the result of an uninterrupted, persevering regard for these facts and principles; and purchasers who have so often spoken of the uniformity of excellence in our Instruments will be led to understand how this superiority and uniformity has been attained—a result which is apparent to even ordinary judges, in the volume and richness of tone, the sustained and human character of their singing quality, while connoisseurs and critics fully endorse all that we have adverted to.

The unanimous opinion of the best artists and the most reliable critics is, that

THE DECKER & COMPANY'S

IVORY AGRAFFE BAR PIANO-FORTE

IS THE ONLY SQUARE PIANO-FORTE,

Which

IN VOLUMINOUS SONORITY, AND POSITIVE SOLIDITY OF TONE,

PIANO-FORTES.

Having completed our new manufactory on a greatly extended plan, in comparison with the one formerly occupied by the senior member of our firm, and furnished it with the finest and most approved machinery required in the manufacture of Pianofortes, we are prepared to sustain the unrivalled reputation for excellence and superiority by which the DUNHAM PIANO has been known and recognized, in every section of the country, for over thirty years, and which to-day stands without a rival as the

MOST EXCELLENT AND DURABLE PIANO

IN THE

WORLD.

The great combination of improvements attained in the "DUNHAM" PIANOFORTE in regard to tone, power, equality and perfection of workmanship, has elicited from the most eminent professors and critics, the UNANIMOUS opinion, that the

"DUNHAM" PIANO CANNOT BE EXCELLED.

The system that has so successfully established the reputation of the "DUNHAM" PIANO will be continued by us: and while claiming (without fear of contradiction) for our house, the honor of introducing to the public the last grand and great era of Pianoforte improvement, which has given to

AMERICA'S SONS, THE HIGHEST OF THIS WORLD'S HONORS,

we will exert our utmost efforts to keep the "DUNHAM" PIANO in that high position of merit, for which all men strive, but few attain.

Boston and New York; and also at the American Institute for five successive years, the gold and silver medals
from both of which can be seen at our warehouses.By the introduction of improvements we make a still more perfect Piano-Forte, and by manufacturing largely,
with a strictly cash system, are enabled to

Offer these instruments at a price that will preclude all competition.

TERMS—Net Cash in Current Funds. Descriptive Circulars sent free.

United States Mutual Piano-Forte Association.

(Chartered According to Act of Legislature.)

This Association is chartered for the purpose of furnishing its members each with a Piano-Forte of the first
class, with all the modern improvements at the cost of manufacture—to be paid for in monthly instalments of
\$10. All funds, as fast as received for subscriptions or otherwise, to be invested in Piano-Fortes; which at least
once in each month are to be distributed to such members as will pay the highest premiums for possessions of
an instrument at once, the said premium to be paid on delivery of the Piano-Forte, after which only \$10 per
month will be required, until the instrument is paid for at the original cost.Non-subscribers of the Association who wish to avail themselves of its advantages in getting its Piano-Fortes
can do so by paying in cash the cost of an instrument and an advance of \$40.

By the foregoing it will be seen:

1st. That you are sure of getting a first-class Piano-Forte—warranted in every particular—at the lowest possible
price—say at \$360, which class of instruments are generally sold at \$600.2nd. That you can get an instrument costing \$360 at once by paying a small premium of perhaps \$20 to \$30,
and the instalment of \$10 per month afterwards until the \$360 is paid, which is less than an instrument of the
same class can be rented.3d. That there can be no risk, as all moneys are invested in Piano-Fortes as fast as received, which are dis-
tributed to the subscribers monthly, hence it is one of the safest institutions in the country.4th. That one-half of the premium paid for the immediate possession of the instrument, will probably be suffi-
cient to pay all expenses—office-hire—advertising—printing, and interest on money advanced, &c.5th. That as all the funds for premiums and profits on instruments sold to non-subscribers, after paying ex-
penses, go into the general fund—consequently, as it belongs equally to every subscriber, those who choose to
wait for their instrument will receive credit for their share of said funds which will accumulate monthly
until, perhaps—before the expiration of three years, they will be entitled to an instrument at less than one half or
one quarter the original cost—besides making it one of the best of investments for small sums—as the shares
will increase from 10 to 15 per cent. annually—a large interest—and rendering them always saleable.Subscription Books are open at the Office of the Association, CLINTON
HALL, near the German Penny Savings Bank.The Managers have permission to refer to the following highly respectable gentlemen and mercantile firm
in this City—which they trust will be a sufficient assurance of their honor and integrity in conducting the in-
terests of the Association.Gen. J. M. Varian, 60 St. Mark's Place. Hon. S. S. Randall, City Superintendent of Public Instruction. Hon.

This is the most convenient and desirable article for Bathing the Feet that has ever been introduced to the public. It is simple in construction, convenient, cleanly, and beneficial to all. With it, the water is kept at an even temperature, without removing the feet while the hot water is being applied, thereby preventing the taking of cold, or the danger of scalding the feet. With it, the whole of the lower extremities can be bathed, making it indispensable for the sick chamber.

MATHUSHEK PIANOS.

By a recent invention of Mr. Frederick Mathushek (THE NEW PATENT EQUALIZING SCALE WITH LINEAR BRIDGE), the power of the Piano is so greatly increased that an instrument of little more than HALF THE USUAL SIZE, and LESS THAN ONE-THIRD THE WEIGHT, is in tone, volume, brilliancy and all other respects, equal to that of the full-sized Piano. This is demonstrated in the COLIBRI PIANO, four feet nine inches long, two feet eight inches wide, yet having seven full octaves. THE ORCHESTRAL PIANO (ordinary size), by the same arrangement, equals a Concert Grand. THE PARLOR GRAND, Harp Form, and THE CONCERT GRAND, possess qualities hitherto unattained in instruments of this class. The peculiar construction secures the greatest durability and longest continuance "in tune."

Musicians, amateurs and those desiring to purchase, are invited to call and examine. Send for Illustrated Circular, showing the features of the invention, and the reasons for its excellence.
